5 March 1958

MEMORANDUM FOR: Project Security Officer
THROUGH : Director of Administration
SUBJECT : Dissemination of Information on AQUATONE
REFERENCES : A. SAPC-24833, 27 February 1958
B. SAPC-24811, 3 March 1958

1. I strongly concur in [] recommendation in reference A and Mr. Cunningham's endorsement thereof in reference B. Attached herewith is a memorandum I am sending to [] which I hope will make clear our position in this matter.

25X1

25X1

2. I have no recollection whatsoever of any grant of authority to [] to clear additional people for either AQUATONE or TALENT on his own authority. Nevertheless, I do feel, for reasons set forth in the attached memorandum to him, that our administration of TALENT and AQUATONE clearances up to this time, and in particular our failure to make a clear distinction between the different but overlapping bodies of knowledge covered by them, has encouraged confusion. It is for this reason that I feel at least a part of [] misunderstanding to be a natural one and that I have tried to explain our problem to him.

25X1

3. I cannot express too strongly my dissatisfaction with the looseness of our definition of the TALENT clearance. I can assure all the addressees of this memorandum that in the present state of mind at the top of this Government, one bad leak about the AQUATONE collection operation will not only destroy this Project but foreclose any others like it for a long time to come. I earnestly bespeak the cooperation of all concerned in tightening up our security even at this late hour.

(sgd) Richard M. Bissell, Jr.

RICHARD M. BISSELL, JR.
